

ML Princess 2

TECHNICAL DATA

TD064US-01	14.12.05	LR/KK
------------	----------	-------

The ML Princess 2 is part of a complete high pressure humidification system with one or more humidification units. Every unit consists of a nozzle ring with 8 nozzles and a built-in fan. Humidity is produced as water under high pressure is atomized into micro-sized particles. The fan distributes the droplets, thus insuring a uniform humidity throughout the entire room.
