Reliable & Dependable

EL Series
Electrode Steam Humidifier
Tried, true, and trusted for over 40 years

Humidification and Evaporative Cooling
The world’s most water efficient humidifier

The all new Nortec EL Series Humidifier

The EL electrode steam humidifier offers the latest in atmospheric steam technology. The boiling action takes place in the cylinder – a replaceable canister that makes maintenance incredibly easy. When the cylinder is replaced, the humidifier is brought back to a like-new condition. Additional features such as the touchscreen controller and the auto-adaptive control algorithm truly make this humidifier state-of-the-art.

- Packaged humidifier with easy installation
- Easy maintenance with replaceable cylinder
- User-friendly touchscreen controller
- Patented auto-adaptive control algorithm minimizes water usage
- Operation on potable water, with conductivity from 150 to 1200 microSiemens/cm
- Standard building automation support with integrated BACnet (IP and MSTP Slave) as well as Modbus. BTL and Lonworks options available
- Standard OSHPD certification for seismic environments
- Zero unit side clearance
- Capacities from 5 to 200 lb/hr

The EL humidifier is adaptable to a variety of applications. It is the humidification technology of choice for commercial offices, computer rooms, museums, and any other application where a reliability is required. The new Nortec EL builds on the tried-and-true technology that Nortec was founded on over 40 years ago.
