

DRAABE LIFE EXTENSION PROGRAM

DRAABE

The operation of any humidification system is only as reliable and hygienic as the service and maintenance practice performed. With this in mind - RELAX. Let our certified technicians address your humidification equipment needs while you continue with business-as-usual.

WHAT IS TO BE EXPECTED

At Nortec Humidity, we are passionate about what we do and are constantly striving to help our customers achieve overall success. Be assured your humidification system will be functioning at optimal performance after a certified technician performs a system assessment, preventative maintenance, and (if necessary) any part replacement to extend the life of your DRAABE humidification system.

Equipment Efficiency

Know that humidification equipment will run at peak performance, extending the life of the system.

Reliability

Comfort in knowing that goods and services will be delivered in a timely manner.

Improved Safety

Evaluation and analysis of water quality and bacteria testing, minimizing the risk of unsafe water dispersal

Cost Savings

Optimization of production time by enacting routine preventative maintenance - addressing potential problems before they become costly emergency repairs

Confidence

Experience peace of mind knowing that a certified technician will be on-site to deliver high quality service

Convenience

Let Nortec handle all of your humidification needs

GOING FORWARD

Nortec Humidity offers a variety of service packages to make servicing your humidification system as easy and convenient as possible. Choose the service that best meets your needs.
